CERTIFICATE

No. B-VHT-442-24-OTTOCOLL_M560-241106-EN

This is to certify that the
adhesive fixing of drywall profiles
as a direct rigid connection in accordance with DIN 18183-1 for
non-load-bearing internal partition walls in accordance with DIN 4103-1 using the

Premium Hybrid Adhesive OTTOCOLL® M 560

from the manufacturer

Hermann Otto GmbH
Krankenhausstr. 14,
83413 Fridolfing,

is suitable for withstanding the resulting shear stresses from
console loads of up to 3.0 kN/m wall length,
provided that the wall construction is suitably load-bearing and rigid and
the adhesive fixing is installed correctly (design and substrate).

Note: The load-bearing capacity of a drywall construction
and its load-bearing capacity is largely dependent
on the wall construction and not on the connection fixing.

This certificate is based on the following documents issued by VHT Darmstadt:

- Test report
PB-442-24-OTTO_Chemie-Konsollasten-240913 dated 13.09.2024,
- Expert opinion
G-442-24-OTTO_Chemie-Konsollasten-241106 dated 6.11.2024.
